

## INTRODUCING WALLANDRA

Wallandra has contributed to the construction industry for over forty years.

Their genesis in construction, as builders, lead them to identify the opportunity to improve the supply offer to the market.

Their purpose built facilities based in regional NSW, allows Wallandra to offer an unequalled integrated supply chain.

Designed for greater efficiency, it streamlines the process from design, engineering, manufacture, transport and construction.

Through greater control of the process, Wallandra is able to supply large scale steel buildings, fast and efficiently.

This same process allows Wallandra to design and construct highly customised buildings with ease.

# QUALITY STEEL BUILDINGS

Wallandra's unique supply chain leads to the fast and efficient design and construction of large scale steel buildings.

This same process allows Wallandra to design and construct highly customised buildings with ease.

Their goal is to make the whole process seamless and easy for the customer.

## BUILDING APPLICATIONS

Wallandra buildings are engineered for durability and designed to create the ideal environment and work space for their customers.

Regionally based, Wallandra has serviced the Australian Agricultural market for over 40 years.

- \ Dairy Infrastructure
- \ Machinery Sheds
- \ Grain Storage
- \ Wool Processing and Storage
- \ Poultry Sheds
- \ Livestock Shelters
- \ Equestrian Facilities
- \ Hay Sheds

## COMPLETE SERVICE OFFER

- \ Design
- \ 3D Modelling and workshop drawings
- \ Engineering
- \ Structural Steel
- \ Steel Cladding
- \ Precast walls
- \ Transport
- \ Construction
- \ Project Management

## CUSTOM DESIGNED - CUSTOM MADE

Wallandra's regional location and agricultural portfolio attest to their depth of experience and understanding of the rural and regional market.

Wallandra's key focus is to meet the needs of their customer's enterprise.

First step, Wallandra works with their customers to design the ideal solution.

Whether it is a structure to store hay, secure valuable machinery, house a multi-stand shearing shed or state of the

art dairy facility, Wallandra work to the individual requirements of each project..

Engineered for the long term, these customised buildings have remarkable spanning capabilities to accommodate every infrastructure need.

Design and detailing control allows the flexibility to tailor space, light and ventilation creating a structure that provides a consistent and comfortable environment.

## DESIGNED AND CONSTRUCTED TO WORK FOR YOU
